

#NotAnymore

Effective Spring 2019, a law was passed that all college students, including Dual Credit students, must complete a sexual harassment prevention training. Students may not register for courses during their second semester until this training is completed. To complete your training and registration delay, please complete the following:

1. Login to your TCC WebAdvisor account
2. Click on the "Students" bar (underneath the blue ovals) to access the Student Menu
3. In the second section titled "Prepare to Register" you will click on the top link "#NotAnymore"
4. This will lead you to the online training system and a pre-information form.
5. **Be sure you click the box indicating you are a TCC Dual Credit student on this form.**

You will be given a pre-test followed by a series of online modules and a post-test you must complete. The process can take up to 45 minutes. You must make a 70 on the post-test to be marked complete. Once you have completed this training, it will take 24-48 hours for the system to update and allow you to register. Please complete this training as soon as possible to prevent registration delays.
